

SOUTH CAMPUS

BUILDING EXPANSION

Since South Campus began, we've seen God work in an awesome way in our church family and in Johnson County. Burleson is home and we're grateful for the chance to be a part of the community in a tangible way.

As we move into the next chapter of ministry, we've realized our reach only goes as far as our capacity. Because of God's grace, and your generosity, we've been able to begin our *Expand the Reach* project, but we're far from done!

A new building will help us in three key areas:

- Providing space for kids in our Sunday Kids Ministry. Our Kids Ministry is consistently growing and we need more space. Our new building will ensure we have space for every kid to hear about Jesus and have a great experience at church.
- Providing space for students on Wednesday nights. Each time our Student Ministry meets, our students have a time of worship, Bible study and small group discussion. A new building will provide ample space to gather and study God's Word.
- Providing office space at our campus that allows us to bring all South Campus ministry under one roof.

We ask that you prayerfully consider contributing to this project, and by extension, the ministry here in Burleson.
